Discover how our Executive Director is leading the way in inclusive, world-class online education by reading her

WORDS OF WISDOM

At House of Highflyers our mission is to make education accessible, engaging, and effective for everyone. We're committed to creating innovative learning solutions that empower individuals of all ages to reach their full potential. We believe that education should be a journey, not just a destination, and we're dedicated to providing the tools and resources to make that journey a success.

We're incredibly proud of the work we've done so far, and we're even more excited about what's to come. We're constantly exploring new technologies and approaches to enhance the learning experience. We're also committed to partnering with educators, parents, and community leaders to ensure that our solutions meet the diverse needs of our learners.

In this edition of our Newsletter, we are not only announcing ADMISSION INTAKE for new academic year, but also giving an opportunity to avail discount by using the coupon.

Join us in this learning journey and let's grow into a highflying community.

THE APP YOU SHOULD BE USING

"Epic!" is a great app for young students. It's essentially a digital library with thousands of books, audiobooks, and videos for kids. The app is designed to be very user-friendly, with options to read books aloud and track reading progress. It offers a wide variety of genres and reading levels, making it easy for kids to find books they enjoy. It's a fantastic way to encourage reading and build literacy skills in a fun and accessible way.

HIGHFLYERS MAGNATE

Our Parent Organization - An academy that voluntarily supports Parents, Teachers and Students and facilitate the to face personal and professional challenges

BISMA KHAN

Bisma Khan is the founding member of House of Highflyers and currently serving as the Director Administration

WHAT IF....

1. If you had to measure your height in Oreos, how many Oreos tall do you think you would be?

2. If you could build a house out of any material, what would it be and why?

3. If you had all the LEGOs in the world, and the time to do it, what would you build?
